Goal Date:

Use the sheet below to do a brain dump. Ask yourself: How can I increase my income? Can I ask for a raise? Can I find a better job? Can I start a side-hustle? Can I sell items in my home on Facebook Marketplace? Can I cancel subscriptions, or split the cost with someone? Can I lower my phone bill? Etc.

SIDE HUSTLE IDEAS

WWW.HERHUSTLE.COM

1. Virtual assistant service
2. Reach out to companies you love the products of and ask them if they would pay you \$\$\$ to leave reviews across all of their platforms, yelp, and Google reviews
3. If you have a clear voice - reach out to Authors and propose that they pay you to create an audio version of their book to sell on Audible.com
4. Do you have a very well behaved dog? Are you great with grandparents? Put up a dual service to bring your doggo and yourself for a visit with the elderly. Be present with them, talk to them, share stories. Some elderly are lonely and would love visitors. There are families who would like to have a trustworthy visitor to drop by and play games, chat, and laugh with their loved one
5. Check to see if you have any cash rewards (or airmiles) on your credit cards that you can claim
6. Online surveys
7. Use Fiverr.com and sell a proof-reading service
8. Sell items on Teespring (print on demand)
9. Flyer distribution service
10. Sell photography presets
11. Host an online fitness or yoga class
12. Social media content manager
13. Create a digital course
14. Sell old items in your household
15. Sell clothing you are no longer using
16. Become a chat agent
